where did the breeze blow from  
makes you dance around  
whered the devil come from  
makes me wanna paint the town  
a ship can go down in the ocean  
but as far as I can see  
nobody loves you like I do but me

never have no troubles  
we always get along  
may have to ask you for a loan sometime,  
but that aint wrong  
when you and me get into a huddle,  
no man can intervene  
nobody loves you like I do but me

nobody loves you like I do but me  
nobody rolls around like you roll around with me  
I give you the moon and I say  
no man need fade away  
nobody loves you like I do but me

my man is like an owl,  
hes a creature of the night  
he blend with the scenery in the daytime,  
hes on to the light  
he sit like a spook in a tree  
and he hoot and howl for you  
nobody loves you like I do but me
