I'm looking in the mirror, I can see your body shiver
next to mine
But all that I can think of, the only thing that worries me
is time

Time to go beneath the lies, time to mess me up inside
in time you'll find the things I've tried to hide

But I know I've have this chance, to try
I will never take a chance, please don't ask me why
It will only make it worse, it's my curse
I've never been left 'Cause I leave first

I pictured it before me, that we would stay together for
a while
But confidence is fading, I know that you will learn this
when you find

That time did go beneath the lies, and time did mess
me up inside
yeah, time showed all the things I've tried to hide

But I know I've have this chance, to try
I will never take a chance, please don't ask me why
It will only make it worse, it's my curse
I've never been left 'Cause I always leave
I always leave

But I know I've have this chance, to try
But I will never take a chance, please don't ask me why
It will only make it worse, it's my curse
I've never been left 'Cause I leave first
