It isn't easy to believe in you
When act and look the way you do
You've got a secret deep inside of you
Can I be a part of it?

Is it something I don't want to hear?
Would I leave and walk on out of here?
It isn't to believe in you
When you look the way you do

So let me in, reveal your sin, reveal your sin

Let me know what's trapped under your skin
Let it out, tell me where you've been
Let it out

Am I the only one who dosen't know?
Come on my love you've got to let it show
Has it anything to do with me?
Am I a part of it?

Is it something I don't want to hear?
Would I leave and walk on out of here?
It isn't easy to believe in you
When you look the way you do

So let me in, reveal your sin, reveal your sin

Let me know what's trapped under your skin
Let it out, tell me where you've been
Let it out
