You can love me in a pagan way
She wispered softly in my ear today
you can se me when your wife's away
come on and love me, just anyway you want to

You can love me in a pagan way
you can see me but not today
don't be gentle she said with a smile
Lay here and play with me for a while

It's a serious game
I've lost all the same in the serious game

I was with someone wlse the other day
I let him love me in a pagan way
Someone you know that's att that I can say
She whispered softly then she turned her head away

It's a serious game
I've lost all the same in the serious game

Then she called me, yeah she called me
Just to tell me, just to tell me
Yeah she called me, yeah she called me
Just to tell me, she's playing the game with someone
