(Get up 8x)
And (free yourself from yourself 2x)
Locked up inside you,
Like the calm beneath castles,
Is a cavern of treasures
That no one has been to.
(Let's go diiigging. 2x)
Bring it out to take you back in.
Yooou do what you'd like to do.
Laaay back and let me show you another waaaay.
I'll kill what you want me to,
Take what's left and eat it.
Take all or nothing.
Life's just too short to push it awaaaay.
Take it all.
Take it all in.
(All the way in. 2x)
Let it go.
Let it go in.
You won't feel what you'd like to feel.
Laaay back and let me show you another waaaay.
I'll kill what you want me to,
Take what's left and eat it.
Take all or nothing.
Just too short to push it awaaaay.

Knock me down I'll just come back running,
Knock you down, it won't be long now
(All the waaay in. 4x)
All the waay.
I'll kill what you want me to,
Take what's left and eat it.
Take all or nothing.
Just too short to push it awaaaay.

Take it up, take it up higher.
4 degrees now, 4 degrees warmer.
(Give in now 2x),
Let meeeeeeeeeee in.
You'll like this,
This brings us out.

You'll like this.
It brings us closer than,
Dying and, cancer and, crying.

-Why don't you take it all. Take it. Want you to take it all.
Take it. Take it, c?mon. C?mon take it all. Take it on up.
Won't you take it all. Take it. Want you to take it. Take it
all. Want you to take it. Take it. Won't you take it. Take
it. Take it. Take it. Take it. Mmmha mmmha mmmmmm
whooooo!-

I'll kill what you want me to,
Take what's left and eat it.
Take all or nothing.
Just too short to push it.

(Just like that. 2x)
Just liiike!
