Uh, goin straight to the top baby, chea

[Verse 1: Young Chris]

I think I might wife her

You know, powder blue Roc-A-Wear suit, white Nike

My niggaz like her

She been with me through the grind

Girl you put in that time like been lifer's

You got tight used to hooky and chill

Twat tight plus she cook up a meal

Had the hook up for real

More headaches and stress cause a child involved

It's all good cause our sex be my tylenol

Best baby doll of all

Shit the rest of you childish broads

Give me the sex then I'm tired of y'all

So find a next to provide for y'all

I got my baby girl, plus she about to drop, my baby girl

Forget about all the rumors you hear girl

A newer life soon to be here girl

And can't nothin' fuck up that

Got to fuck with that

Can't find a better love than that, my baby girl

[Chorus: Rel]

Don't stop givin' me your lovin'

Cause my heart's been racin' for your lovin'

And I won't give it up for nothin'

Cause there's no better love

Girl you got me goin' crazy

You got me thinkin' bout you baby

Could you be my one and only lady

Cause there's no better love

[Verse 2: Neef]

Comin' up I thought Cupid was stupid

Only two love's my family and music  
Fallin' through somethin' just couldn't do it  
It was the beginning of time, and you was like nine  
But God damn you was fine  
Used to stay on my mind, when I was out on my grind  
Opened up the bags when I'm choppin' my dimes  
There in the spinel stood by me for the rentals  
Popped up mad shit with me and got me rentals  
Sick with the plastic, what can I say  
Bitches hate around the way, I had a lady  
Gossip and watchin' him, runnin' back  
Moved up North, kinda fell off track  
Still my peoples though, love when I see you though  
Once a while might call just to chill might ball  
Forever my dog, even when I downfall  
First in line whenever chick is involved, but

[Chorus]

[Verse 3: Neef + (Young Chris)]

We the youngest in charge, so leave them other scrugs  
We give you better love the same time is tough  
(Baby I feel the same as Neef do)  
(Spit the game as he do)  
(If you could take two, ain't no need to bring your  
people)  
Lingerie see-through  
(She got it goin' on)  
Oh that's +Can't stop, Won't stop+  
(We got 'em goin' home)  
We got 'em all alone  
(Just us nobody's wrong)  
I'm a hit it you can hit it  
I pull out on them all

[Verse 4: Rell]

Ever since the day I saw your face  
My mind told me you were the one that was down for  
me  
And baby when I get laced, I'm gonna do what you want  
I'll be there (truly)  
So don't you let her think, turn you away from the love  
that you need (my dear)  
I don't wanna play, around wit you cause I know I found  
lovin' (lovin')

[Chorus x2]
