The Coolest Guys around the town
Everybody come and gather around
Me and Mike are here to stay
We make these rap songs every day

The Coolest Guys around the town
Everybody come and gather around
Me and Mike are here to stay
We make these rap songs every day

Your mad cause your girl friend wants to hold my hand
I could go like this and hit you with a rubber band
Now I think I'll go and ask your girlfriend on a date
I'll pick her up at 7 and I won't be late

And then I'll probably blow her a kiss
Have you ever seen me do it
It goes like this

Kiss your hand and blow the kiss away
She maybe didn't tell you that I kiss her every single
day
I learned this move in my karate class
Try and pay attention cause I'm gonna do it fast
Right punch, left punch, kick and spin
Now go home and practice and show it to your friends

I could run one mile in 7 minutes flat
I even got a ribbon I bet you like that
It's a first place ribbon that's why it's blue
If you go home and practice you can get one too

The Coolest Guys around the town
Everybody come and gather around
Me and Mike are here to stay
We make these rap songs every day

The Coolest Guys around the town
Everybody come and gather around
Me and Mike are here to stay
We make these rap songs every day

I could shoot a shot as good as Michael Jordan
My favorite NBA player is Michael Jordan
My other favorite NBA player is Kobe Bryant
When he jumps in the air he goes flyin'

Some day I wanna rap like Eminem
Lose yourself is my favorite song by Eminem
You can even ask Mike, I know all of the words
It's probably the best song that I've ever heard

Everybody knows that I have no fear and guess what
last year I caught 3 deer
So what do you think about that?
My name is Krispy Kreme and I really like to rap
And I know how to cook some real good chicken
Have you ever tried it that stuff is finger licking
It's so darn good it tastes so good
I like to eat chicken every single week

The Coolest Guys around the town
Everybody come and gather around
Me and Mike are here to stay
We make these rap songs every day

The Coolest Guys around the town
Everybody come and gather around
Me and Mike are here to stay
We make these rap songs every day

Peace!
