I can see with my newborn eyes  
When the smoke in my mirror subsides  
Here I stand, watching my true face  
Like a scene from a memory...

As a bearer of the dreaded mark  
Shrouded by an aura of death  
My mind and vision cleared of fear  
My voice of darkness whispers

From the realm of the shadows of time  
I've come looking for the light  
As the stone cold master of fate  
A dreaded creature of the night

No one will hear  
The hollow echoes of the past  
No one will fear  
The souls of all those who were lost

My love showed me the way out of the maze  
In a flash, washed the scales from my eyes  
Took my hand, and revealed herself  
A mark like mine, only stronger

As we ran from the fire and the cries  
From the hatred hunting us down  
The cloud of doubt lifted from my soul  
This was fate, we had been there

Thunderclouds sweep across the black sky  
Distant fires burning bright  
With my sister soul at my side  
We will live through every night

No one will see  
Secrets that lie within our grasp  
Oh how I feel  
Redemption that will come at last

From the realm of the shadows of time

I've come looking for the light  
As the stone cold master of fate  
A dreaded creature of the night

No one will hear  
The hollow echoes of the past  
No one will fear  
The souls of all those who were lost
