Like the first ray of light of a new dawn
You entered my life
Turned the world upside down
A shadow, a ghost from a past life
Suddenly with a face and a name and a love

Ooh Louise - From this day on my world revolves
around you
Ooh Louise - The skies are clear, the birds will sing
The trees whisper your name

No lines in the lores of the prophets
No star marks the day of your birth
How strange is the bond between our two minds
If I were a woman, we'd be two of a kind

Noticed your face in a crowd - no sound -
The world stopped in its place
My eyes caught your eyes in the mirror of time
Only to find myself locked inside your gaze

Ooh Louise - My nights last longer when I dream about
you
Ooh Louise - My love you are a shooting star that
lights the sky
Noticed your face in a crowd - no sound -
The world stopped in its place
My eyes caught your eyes in the mirror of time
Only to find myself locked inside your gaze
