"1:

Suprise Surprise here we are again, i guess you didn't see that coming.

Style is old but the tunes are new, and we hope you think they're rocking

Whoopass song, one slow, one ska, and one of them in minor

The Formula we thought was good, and we hope you think so too

2:

Six a.m at friday night, well actually saturday morning

Two days until studio time, and guess what i am doing

I should be sleeping, i hope i could, but im working with these words

Trying to not to make a sequel to Ooze, but that is what is coming from this

2:

BRIDGE:

So hell what, lets Punk rock go

Welcome to a punk rock show

CHORUS:

If you're young or old

Or you're shy or bold

Let's punk rock go

to a punk rock show

Raise your hands and hear

Feel the beat dont fear

It's just punk rock,yo

In a punk rock show

3:

Two years passed, we still don't shit our pants, And the cow does still go moo moo

Still can't get no sleep, even if counting sheeps, and we sill do hate our neighbours

So nothing has changed yet, we still don't have our private jet

And we still don't know how to skate on street, the only

trick we know is called nosebleed

4:

I dont know if someone even cares that what im really  
writing

But just to make my point of view, USA should stop the  
fighting

We should feed the poor and shoot the rich and start to  
live like Robin Hood

Although most of people think the same, they just need  
to get to that right mood

BRIDGE:

So hell what, lets Punk rock go

Welcome to a punk rock show

CHORUS:

If you're young or old

Or you're shy or bold

Let's punk rock go

to a punk rock show

Raise your hands and hear

Feel the beat dont fear

It's just punk rock,yo

In a punk rock show"
