So give 'em hell
Don't give in or give up
Please tell me you don't
Listen to what they say
We were only kids
When life just threw you in the dirt

Stand up, suck it up
and take a breath now
Tell me you don't let life get in your way
Drugs got the best of you
and everybody's dripped your heart out too

Let them see the whites of your eyes
Let them see the whites of your eyes
Let them see the whites of your eyes
Let them see the whites of yours

On a day that we will fight
You feel me there
You know that it's alright
(I know you can handle this, I know you can handle this)
And time will tell
The dust will settle
and I'll still be there fighting by your side
(I know you can handle this, I know you can handle)

(You should always know that I won't let you go)
And on a day that we will fight
You feel me there
You know that it's alright
(I got your back yeah, you know I got your back now
I got your back yeah, you know I got your back now)
(You should always know that I won't let you go)
And time will tell
The dust will settle
And I'll still be there fighting by your side
(I got your back yeah, you know I got your back now
I got your back yeah, you know I got your back now)

So keep the pace, hold it fast

Just keep it up now
Don't let this fear rob you of everything
It's everything you loved
It's everything, it's everything
It's everything you loved

No regrets
Don't look back
Just keep your chin up
Please remember tomorrow's another day
But tonight
It's time to fight

Let them see the whites of your eyes
Let them see the whites of your eyes
Let them see the whites of your eyes
Let them see the whites of yours

On a day that we will fight
You feel me there
You know that it's alright
(I know you can handle this, I know you can handle this)
And time will tell
The dust will settle
and I'll still be there fighting by your side
(I know you can handle this, I know you can handle this)

(You should always know that I won't let you go)
And on a day that we will fight
You feel me there
You know that it's alright
(I got your back yeah, you know I got your back now
I got your back yeah, you know I got your back now)
(You should always know that I won't let you go)
And time will tell
The dust will settle
And I'll still be there fighting by your side
(I got your back yeah, you know I got your back now
I got your back yeah, you know I got your back now)

(This should have never happened
This should have never happened
This should have never happened
I should've never let this happen
This should have never happened
This should have never happened
This should have never happened
I should've never let this happen)

(This should have never happened)
This should have never happened

(This should have never happened)
I shouldn't have let you go
(This should have never happened)
I shouldn't have let this happen)

I shouldn't have let you go

This should have never happened
