Start screaming, just be bold
Everybody like to see the freaks explode
They always know better than you
But they never really know what to do

The situations like a loaded gun
If you don't wise up, you could be the one
Nobody really liked your ways
But, hey, man, it doesn't matter anyway

You talk and talk, their minds made up
You beg and pray, the only way their gonna listen today
is

Shout, come on and let it out
Shout, come on and let it out
Shout, come on and let it out
Shout, come on and let it out

Still laughing, I don't know why
If you look outside, it'll make you cry
Still think this is one big joke
But there's kids on the street and they're getting
smoked

The news brings you down, hey, what can I say?
Go and turn it off but there's no getting away
Never paid attention to the man at stake
You better pay attention, now 'cause it's too late

You talk and talk, they're minds made up
You beg and prey, the only way they're gonna listen
today is

Shout, come on and let it out
Shout, come on and let it out
Shout, come on and let it out
Shout, come on and let it out
