"Interview"

Tonight in the studio we have Ant & Dec: Under The Microscope.

Now, you boys have been causing quite a stir recently, have you got anything to say for yourselves?

(Laughter) Erm...

Lyrics over flowing, reputation growing
Ready, steady, wicked like Freddy
If you wanna catch us, you better catch us quick
Rock around the clock now tick tock tick
Loud and proud we please and tease the crowd
Watch us steal the show, here we go
As we strut our stuff, they just can't get enough
Push it, shove it, they're gonna love it

Chorus:

C'mon talk about it
Get up, get up, jump up and down
C'mon and talk about it
Get up, get up
Everybody shout, everybody shout HO!

Scooping up honours wherever we go
An Oscar? a Grammy? Nah, I don't think so
Ravin', cravin' a number 1 smash
Silencing critics no pan in the flash

War of attrition, there ain't no competition
Comin' straight at ya, we're both on a mission
So don't you sleep, I'll be back
Terminatin', devastatin', lyrical attack

Chorus:

C'mon Talk about it
Get up, get up, jump up and down
C'mon and talk about it
Get up, get up
Everybody shout, everybody shout HO!
C'mon Talk about it

Get up, get up, jump up and down
C'mon and talk about it
Get up, get up
Everybody shout, everybody shout HO!

Hot like a chilli, don't play us like we're silly
No dirty tricks like Milli Vannilli
Stepping on stage, what ya see is what ya get
Coming of age, there's nobody better yet

We got our act together this incredible team
We rose to the top like the very best cream
Like a rolling stone we ain't never gonna stop
It's A.K.A. with a new brand of Hip-pop

Chorus:
C'mon Talk about it
Get up, get up, jump up and down
C'mon and talk about it
Get up, get up
Everybody shout, everybody shout HO!
C'mon Talk about it
Get up, get up, jump up and down
C'mon and talk about it
Get up, get up
Everybody shout, everybody shout HO!

Repeat to fade
