You can power a city with this
I am useless, I am a mess
I am the smallest giant ever
I am the smallest giant ever

Don't know how long it's gonna last
Everything is moving fast
I am the smallest giant ever
I am the smallest giant ever

Everything you ever said was brilliant
Anything you want to do is fine by me
This is much better than love, babe
This is a crush story

Misunderstand me
Hey, Misunderstand me
I just wanna lay my head in your lap
I just wanna lay my head in your lap

Everything you ever said was brilliant
Anything you want to do is fine by me
This is much better than love, babe
This is a crush story
