"By My Side"

When you feel like you've fallen out of use
Come by my side
The starved pain my girl you have induced
Come dine by my side

Everything she said to me was true
So now I know why
You look blue, it's eating through you
So come by my side

Don't want to fall out of love with you
Don't let me fall out of love with you

I'll dig down and I'll search for a heart of gold
In your diamond mind
Don't you know, my girl, I'd farm the world
To come dine by your side

Everything you say to me gets through
So now I know why
I'm not through with life because of you
So come by my side

Don't want to fall out of love with you
Don't let me fall out of love with you

Girl you know that I still need you
Pick it up and we'll find a way
Don't you know that I still need you
Look it up and we'll find a way

Don't wanna fall out of love with you
Don't let me fall out of love with you
Don't wanna fall out of love with you
Don't let me fall out of love with you
