Well, I was sleeping, only in my head,
Slipping in and out of time,
And I was lifting, always higher,
And the women of heaven sang,
They were singing...

How'd you like that,
How'd you like that,
How'd you like that,
It lifts me up...

What better time to take a ride with you,
Through the universe tonight,
The look of sound looks,
Much like your face,
And the symphony,
That helps me sing,

They were singing...

How'd you like that,
How'd you like that,
How'd you like that,
I only just let go...
It lifts me up...

I feel for you, will you feel for me,
Let's work together,
And take it out across the sea,
To America,
I feel for you, will you feel for me,
Let's work together,
And take it out across the sea,
Let's work together.
