I get this feeling sometimes
Like there's nothing in the world that isn't mine
And I could have it all
Maybe I should have it all
I'll take you out of your life, just for one sweet night
And you could take it off, maybe I could rip it off
It's easy to pick and choose
With you and me, we can only lose
Just don't fight me off, and I won't write you off

You take me in and then you push me out
Fall all over yourself tonight
Just don't let it go without a fight
You take me in and then you push me out
Fall all over yourself tonight
Just don't let it go, let it go

So here I am again, singing songs about the summer
'Cos that's when you and me, when we came to be
I brought you home to my guitar
And told you how sweet you really are
'Cos you know what's on my mind
'Cos you get it all the time
It's easy to pick and choose
With you and me, we can only lose
Just don't fight me off, and I won't write you off

You take me in and then you push me out
Fall all over yourself tonight
Just don't let it go without a fight

No no no another girl no no, don't fight me off little girl
And all my other girl, no no no no
So don't fight me off, little girl, little girl

You take me in and then you push me out
Fall all over yourself tonight
Just don't let it go, let it go, let it go
You take me in and then you push me out
You fall all over yourself tonight
Just don't let me go, let me go, let me go

Let me go, let me go, let me go
Yeah, yeah, yeah, yeah, yeah, yeah, yeah, yeah, yeah,
yeah, yeah, yeah
