I don't why you had to BBOS, you were a million
And this is where our bitches tell me what you got and
you're making a killing off me
What can I say now?
You know you're driving me insane now, waiting ho

I was trying to hate you
Rub me like you love me ho
But I tried to get to you
Rub me like you love me

It's just a similar story
You need to say everything but you never have to say
I'm sorry
What can I do now?
Do everything I wanted to do now, here we go

I was trying to hate you
Rub me like you love me ho
But I tried to get to you
Rub me like you love me

You ain't gon love me ho
Not into me, you love the lalalalalala
You love the lalalalalala
You love the lalalalalala
You love the lalalalalala
