Oh won't you promise me
That you'll always care
That no matter the distance between us
You'll always be there
Now it's easy to be there for you
But we don't know what we're gonna go through
So no matter what changes we see
Won't you promise me
Oh won't you promise me
That you'll never forget
All the things that have happened to us
Since the day we met
As the years bring new faces and friends
I won't let these memories end
So no matter what changes we see
Won't you promise me
(bridge)
Well the good things we feel for each other
We don't have to fake
Love is the heart and soul
Of the promise we make

I gotta know what you're going through

I promise to be there for you

So no matter what changes we see

Won't you promise me
