Slow down, wait a second, can't you see.
You'd be wrong to think that this is only me.
Talk to anyone and they'll agree.
This is what you want and not the way it could be.

First you say you'll be good for me and then you turn
around and throw it back at me.
You change your mind and then suddenly you start to
act like there's something wrong with me.

How does it feel when I stand in the middle.
Now don't delay, we make straight for the eyes.
How does it feel to break down to the knuckle.
How long's it take to see straight through the lies.

Hold on, I can tell it's one in three.
Is this the way it was or the way it could be.
Come back, give it to me, you will see.
There is something wrong and there shouldn't be.

First you say you'll be good for me and then you turn
around and throw it back at me.
You change your mind and then suddenly you start to
act like there's something wrong with me.

How does it feel when I stand in the middle.
Now don't delay, we make straight for the eyes.
How does it feel to break down to the knuckle.
How long's it take to see straight through the lies.
