Like a believer

We are out to find

Like a believer

We are living our minds

Like a believer

We don't waste any time

Like a believer

We stand our ground

I just can't understand this

Why it's so hard

To take each other by the hand and

And say that I love you

Like a believer

We can't let this go

No more war

No more war no more war

Just say that I love you

This world is in trouble

We got to find a way

To come together

And make a better way

I can't understand this
No
Troubled the world
There's no time for children
And their hearts
Just look at their eyes
Can't you see you're tearing
Them apart
So I ask you believe us
Don't waste any time
Let's stay together and
Save our world
I just can't understand this
Why it's so hard
To take each other by the hand and
And say that I love you
Like a believer
We can't let this go
No more war
No more war no more war
Just say that I love you
I just can't understand this
No
