Gone, gone, gone, gone with the wind, say something  
Gone, gone, gone, gone with the wind, yeah  
Gone, gone, gone, gone with the wind, yeah  
Gone, gone, gone, gone with the wind

Say something is wrong with this world  
Say something is wrong with the people in this world  
One more is gone and another is coming, oh yeah  
Say something is wrong with this world

Say something  
Gone, gone, gone, gone with the wind  
Gone, gone, gone, gone with the wind

Say something is wrong all the time, yeah  
Say something is wrong with the people in this world  
I say, one more is gone and another is coming, oh yeah  
Say something is wrong with this world

Say something  
Gone, gone, gone, gone with the wind  
Gone, gone, gone, gone with the wind

I say, one, one more is gone and another is coming,  
fast, fast  
Say something is wrong with this world  
Something is wrong with this world, yes  
Something is wrong with this world, yeah  
Something is wrong with this world  
Say something is wrong with the people in this world
