If you're a stranger here  
And you need some action  
We have a remedy  
that could really catch on  
Pleased to see another face  
At light-up time  
If you're feeling dull and run-down  
We can really make you shine.

Dancing in the city

Alleys that we run through  
Now we've just begun to  
Have fun tonight.

Dancin' in the city  
...

Can you feel the darkness call  
Let the street have their way  
They'll carry you on 'til morning  
And steal your soul away.

Dancin in the city...
