so you walk into my office
and you look just like me
we were wearin' next to nothin'
cuz we saw it on tv
have you seen the new season?
there's a new family!
everything is so familiar
unto you and unto me
and we all know what to eat
and we all know what to wear
and we all know what to buy
got a tv in my eye
it's a simple operation
to this special point of view
and its hard to stop standin'
its the only thing to do
can you show me a reason for the new tyranny?
the FBI is in the next room
[inaudible]
and we all know what to eat
and we all know what to wear
and we all know what to buy
got a tv in my eye
