Red and orange pink and purple and blue
These are lots of different colours for you
But black and white and yellow malefic green
These are lots of different colours for me

Lord I seem to know how your colour flow
But I'm dreaming of the past
Lord I better not show what colour wind it blow
Cos this wind may never change

Come on and colour me in
Come on and colour me out

Wohoho colour made this world bright
Living on a shoestring waiting for the phone to ring
Colours made us into life
Into the beginning of a long loving lover lie
Lord I seem to know how your colour flow
But I'm dreaming of the past
Lord I better not show what colour wind it blows
Cos this wind may never change

Come on and colour me in
Come on and colour me out

Wohoho colour made this world bright
Into the beginning of a long loving lover lie
