what's taboo to you is just not taboo to me
do you wanna make a deal
there's nothing i cant steal
its just about living
so make it strong but make it quiet
about living
its just about living

life on an iou
but i see hope between us too
i borrowed it from someone new
something old for something blue
its just about living

what means lots and lots to you may mean
nothing much to me
but ask me while i'm here
or forget it for a year
its just about living

so make it strong but make it quiet
about living
its just about living

life on an iou
but i see hope between us too
i borrowed it from someone new
something old for something blue
its just about living

whats taboo to you is just not taboo to me
do you wanna make a deal
there's nothing i cant steal
its just about living
so make it strong but make it quiet
about living
its just about living

[chorus]
