Different colors and different atmospheres  
Time passes on throughout the years  
Different people with different points of view  
I think of me, I think of you

If you think I don't mean it, if think that I need you  
If you think that I'm joking why don't you just leave me  
be  
And if you think that I'm joking  
'Cos you mean nothing to me

I wander up, I wander down  
I find it hard you being around

If you think I don't mean it, if think that I need you  
If you think that I'm joking why don't you just leave me  
be  
And if you think that I'm joking  
'Cos you mean nothing to me

If you think that I'm joking why don't you just leave me  
be  
And if you think that I'm joking  
'Cos you mean nothing to me

If you think that I'm joking why don't you just leave me  
be  
And if you think that I'm joking  
'Cos you mean nothing to me  
Why don't you just leave me be?
