"Heart In The Clouds"

It is stronger than plasure,
Much stronger than passion,
Because of that, I feel this way today,
Because of you,
I dont know how to explane it too,
I am walking behind your body,
Which lefts me without words,
It is the charm of this love,
Which is shining on my heart,
I can talk only about you,
I am looking in your eyes,
And I dont know where my head is,
I wanna feel and see you beside me,
I want you and your body,
I want to take you deep in the clouds,
To play with your skin,
I wanna see you between the clouds,
Lost your mind because of me.
