I dont know how to start,  
Only I know is to turn on lately,  
And to make desigions alone,  
I cant see the light  
Which is in my eyes,  
And I am thinking of you,  
I think this is crazy.  
And till you are far away  
I am, like always, waiting for you here,  
Becouse youll come back,  
Becouse I can understand you.  
Who is love of my life,  
My heart tells me not to forget you,  
Now, I have reason to continue with life,  
And I can be happy becouse now I know  
Who is love of my life,  
My heart tells me not to forget you,  
Becouse I have a vision which I can say to somebody,  
I know it is truth.  
Today, sun was shineing,  
And I remembered of you,  
And so is everyday,  
But what for youll come back,  
Ill meet you on my way,  
And youll be centre of my life,  
Maybe Ill tell you about magic aventure,  
To stay together forever,  
What takes man which is waiting,  
One star is found.
