I am sitting in the room
With nice music,
I am waiting for the moment
When Ill give you a hug.
Your body is shaking
When I kiss you,
Susana, Susana, Susana,
I am dyeing for your love.
I can feel your arms on my,
My fingers are on your skin,
This beautiful moment is very long,
The time which have pass is very costly.
When the telephone rings
I can recognise his voice says: Who is there?
My new girl is horror,
I am dyeing,
Well meet,
Because today is.. because of me... because...
Susana, Susana, Susana,
I need your worm,
Susana, Susana, Susana,
Let me sit beside you,
To kiss your lips one more time,
Maybe, not right now,
But Ill try to act.
You are cold and far away,
You would love me to go,
Susana, Susana, Susana,
I am crazy for your love,
We are continue with party,
Its almost daybreak,
Magic, which have took us together, disappears,
Ill close myself,
Soon, Ill tell: I am leaving,
Ill say good-bye,
And I said no,
Susana, I need your worm,
Susana, you are close near my heart,
And I am crazy for your love.
