Met you underneath the moon

Night was over much too soon

We shared a kiss till daylight came

And kissed the night goodbye

When the sun came up that day

We smiled and went our separate ways

But I can't leave the thought of you behind.

Chorus:

Oh, you stay with me

You stay with me

Oh, in my heart

And on my mind

Oh, like a melody that keeps

haunting me

Oh, you stay.

I look inside the small cabs

And hope by chance I'll see your face

I hear your voice and realize

It's just the summer wind

Something in your eyes that night

Swept away this heart of mine

Now I just want you in my arms again

Repeat chorus

How was I to know in that one night

My whole life would change

>From the moment I looked in your eyes

I've never been the same

And if I could have one chance to have that

Moment back again

I'd never let it end

I'd never let it end

Repeat verse and chorus
