I had a feeling  
That you're holding my heart  
And I know that it is true  
You wouldn't let it be broken apart  
'Coz it's much too dear to you  
Forever we'll be together  
No one could break us apart  
For our love will truly be  
A wonderful smile in your heart  
When the night comes and  
I'm deep in your arms  
Now I feel, so much secure  
You wouldn't let me close my eyes  
So I can see you thru and thru  
You're the sweet, tender lover  
We are so much in love  
I'm not afraid when you go away  
Just give me a smile in your heart  
Chorus:  
You brighten my day (and/by) showin'  
me my direction  
You're comin' to me and giving  
me inspiration  
How could I ask for more  
from you my dear  
Maybe just a smile in your heart  
I'm always dreamin' of being in love  
But I know that this is true  
Since you came into my life  
'Tis true love that I have found  
I pray that you wouldn't leave me  
Whatever may come along  
But if you do I would feel so bad  
Just give me a smile in your heart  
(Repeat Chorus & Last Line)  
(Repeat Chorus)
