Dive like a swan in a pond, as the train rolls in. Close
your eyes,
hold your breath - , you'll be holding it forever. There
are methods, many
methods - take a pill. Swallow one by one. It's easy, it's
so easy - you
can drift away to heaven. Many methods, there are
methods - like a blade
on the wrist you can carve your initials. It's messy, but
it's effective -
and a method. Another method ... select and slip away.
Tightropes, and
nightshades and shady streets where knives are
swinging (methods!) swing,
swing away on a rope - it's a method. another
method....Airports,
motorways - take a dive, take a dive...Methods.
Methods. .Just select and
slip away (x3) Methods. Just select and slip
away...Methods.
Methods.... Just select and slip away. Take alive, take a
life, take a
dive....
