You curl around me like a fern in the spring

Lie down here, let me sing the things you bring

And we can go down easy

Oh my lover, we can go down easy

Oh my darling, we can go down easy

You come up and see me with your big brown eyes

Come around to my place, you know I'll sympathise

And we can go down easy

Oh my lover, we can go down easy

Oh my darling, we can go down easy

I won't be fancy but I will be free

You know I love you, you can really talk to me

And we can go down easy

Oh my darling, we can go down easy

Oh my lover, we can go down easy
