There's just now way to say how much I love you

You never made me cry and that's just fine

Only got my fear to put above you

You know we all get scared from time to time

Love me with your head and heart

Love me from the place it starts

Love me from your head and heart

Love me like a child

There's just no way to play the things I'm feeling

No way to tell you all the things you need

Every day I only feel like stealing away

To where I know I can be clean

Love me with your head and heart

Love me from the place it starts

Love me from your head and heart

Love me when I'm wild

Laying down the ways to say I need you

Scared of looking tall and feeling small

Running through the days I have decided

Scared of being wrong and that's ?it all
