You've been taking your time and you've been living on
solid air
You've been walking the line and you've been living on
solid air
Don't know what's going 'round inside
And I can tell you that it's hard to hide when you're
living on solid air

You've been painting the blues and you've been
looking through solid air
You've been seeing it through and you've been looking
through solid air
Don't know what's going 'round in your mind
And I can tell you don't like what you find when you're
moving through solid air

I know you, I love you
And I can be your friend, I can follow you anywhere
Even through solid air

You've been stoning it cold, you've been living on solid
air
You've been finding it cold, you've been living on solid
air
I don't know what's going on inside
I can tell you that it's hard to hide when you're living on
solid air

You've been getting too deep, you've been living on
solid air
You've been missing your sleep and you've been
moving through solid air
I don't know what's going on in your mind
But I know you don't like what you find when you're
moving through solid air

You've been walking your line, you've been walking on
solid air
You've been taking your time but you've been walking
on solid air
Don't know what's going on inside

But I can tell you that it's hard to hide when you're
living on solid air
