My oh my
There must be somewhere I can hide
I have no vision, I have no bride
You're a wonder, and I watched you
As you happen
Don't forget I am human, I might start to cry

Leave me now and I will surely die
Stay a while and I will live the night
Life without you, I don't even wanna try
I can't go back, I won't let go

Then again if there are stars above my head
Why should I feel alone?
I will walk in to the darkest night
Take what ever may come

Shadow slowly, kiss each dream and wish away
My hands are empty when they start to pray
I've been walking on the road of disappointment
Did I come here with a depth to pay?

Leave me now, and I will surely die
Stay a while and I will live the night
I won't let go

Then again if there are stars above my head
Why should I feel alone?
I will walk in to the darkest night
Take what ever may come

Na na na na na na na na na
Na na na na na na
Na na na na na na na na na
Na na na na na na

My oh my
There must be somewhere I can hide
Don't forget I'm human I might start to cry

Then again if there are stars above my head

Why should I feel alone?
I will walk in to the darkest night
Take what ever may come

Then again if there are stars above my head
Why should I feel alone?
I will walk in to the darkest night
Take what ever may come
