My friends said you asked about me
and I just wondered what for
don't really want to know what happened
after you left through the door
they say we are made for each other
and I can't help but agree

And since you came back to see me
I guess it's something that had to be

Fallen fallen I've fallen for you
Fallen fallen fallen for you

And now it's 3 years and counting
I never knew it could last that long
and when I saw you this morning
my eyes will never prove me wrong

Fallen fallen fallen for you
Fallen fallen fallen for you

Fallen fallen fallen for you
fallen fallen fallen for you

Fallen fallen I've fallen for you
Fallen fallen fallen for you

Fallen fallen I've fallen for you
Fallen fallen fallen for you
