How can you live with yourself
How come you got your health
Why don't you mind your own self
I hope you'll burn in hell
I hope you'll burn in hell

You speak of things that I do
Which you don't have a clue
Wish I could tell it to you
How much I dislike you
How much I hate what you do
How much I really hate you

How can you live with yourself
How come you got your health
Why don't you mind you own self
I hope you'll burn in hell
I hope you'll burn in hell
I hope you'll burn in hell
