Every morning is the same  
how long is this day gonna be?  
I'll be born and die again  
as my mailbox changes names

If you are living life inside a dream  
If you are dreaming while your wide awake  
If you are living life inside a dream  
there's a chance you will wake up and die

Every morning is the same  
scratching scars, getting annoyed  
around my window there's a frame  
I stuff my stomach to fill the void

If you are living life inside a dream  
If you are dreaming while your wide awake  
If you are living life inside a dream  
there's a chance you will wake up and die
