"Blue On Blue"

Sky and sea stretch endlessly
Two parallels that never meet

Blue on blue without you
Blue on blue without you

Turned upside down, Ill surely drown
How long must I tread before Im found?

Still blue on blue, without you
What do I do without youIm so lost, Im so alone
Almost terrified, nowhere to call home
Since you left me, how do I survive, I need you, right
here by my side
Bluer still than bluest blue,
Blue on blue the only view

Blue on blue without youwithout, without.
