In everyday I keep feeling this way,

What else can I say I wanna kiss you.

I can't deny, what I'm feeling inside,

It's you in my life, let me kiss you.

Verse One:

Every minute that I'm with you,

It seems to me like a dream come true.

I can't get over the way I feel,

The love from you is something real.

Repeat Chorus

Verse Two:

There are so many things that I can do to you,

But since I've been with you everything is new.

You've open up my eyes these feelings I can't hide,

I really feel the love boy please let me kiss you.

Repeat Chorus

Rap by Puff Daddy:
So what 'cha sayin',
When you first met me girl you were scared of my
charm,
At the carnival with teddy bears in your arms.
I like the whole package that come with your hips,
Girl I even like the way that you lick your lips.
I'm that type of guy that gotta be in tha driver's seat,
Take you straight to resorts just for privacy.
And I'm a bad boy and bad boy's do bad things,
But if you kiss me right I put some karats in your rings.

Break:
Kiss, all in the love I feel,
Cause no other love feels so real (for you).
Just kiss me and you will you see,
(My baby, my baby, my baby, my my baby),
In your arms is where I want to be (Yeah).

Repeat Chorus

Outro by Puff Daddy:
I wanna kiss you girl,
Let me kiss ya girl,
Can I kiss ya girl?
I wanna kiss you girl,
Can I kiss ya girl?,
I wanna kiss you girl.

Repeat Chorus to fade
