You started media
Distorting all the facts
You even brainwashed me
So i didn't know how to act
Your attempt at thought control
Didn't work on me
I was born and raised
To hate authority

You try to tell the masses
Anarchy is blind
You try to tell them that
My kind has lost their mind
Why don't you tell the truth
Give the public facts
Your backwards system
Is never going to last

I got no time for you
I got no time for you
Only time for revolution now
I got no time for you
