Mmm

Mm hmm hmm
Mmm
Yeah

[Pam]
When my eyes met your eyes
I knew from the day
A moment you will never regret
Maybe tonight will be so right
For me and you

You're so beautiful

Bridge (Keisha)

All my life I stood by
(Just standin' all alone without no one to call my own)
Then you came by and changed my life
(Now dancin' cause you gave me a heart to call home)

Chorus

What you are to me
Is everything I need
As far as I can see
The most beautiful...

What you are to me
Is everything I need
As far as I can see
The most beautiful...

[Pam]
Finally you started to touch me
And you made it rise, ooh you made it rise
My body started to go (round and round)

Into over-drive, you got me high

You're so beautiful

Bridge (Keisha)

All my life, I stood by

(Just standin' all alone, without no one to call my own)

Then you came by, and changed my life

(Now dancin', cause you gave me a heart to call home)

Chorus

What you are to me

Is everything I need

As far as I can see

The most beautiful...

What you are to me

Is everything I need

As far as I can see

The most beautiful...

What you are to me

Is everything I need

As far as I can see

The most beautiful...

What you are to me

Is everything I need

As far as I can see

The most beautiful...

[Keisha]
