"This world"

Visit "[This world](#)" on MotoLyrics.com

Sometimes you hear in the latest news
Children are abused. Oh, no, Lord!
Sometimes you find another war.
Sometimes you feel there's no shore
For the only boat we have.
Sometimes we need some place
Where no one has to blame
For all we have to fear of;
Where no pollution has to live,
Where children begin to reign.

This world is one.
We don't have another one.
This is only place to be
All the people have to see.
(chorus x2)

This world is one.

Sometimes you feel another door 1
Where the people have much more
To do for our Earth.
This is human factory.
Children's personality should be the
Greatest faith of all
We don't need the Neverland 2
We just need to understand this world!

This world is one.
We don't have another one.
This is only place to be
All the people have to see.
(chorus x2)

This world is one.

No more tears, no more fears!
No more trouble to anyone!

This world is one.
We don't have another one.

This is only place to be
All the people have to see.
(chorus x2)

This world is one.

This world is one.
We don't have another one.
This is only place to be
All the people have to see.
(chorus x2)

This world is one.
