Yo, can you hear me?
Well, uh, this goes out to you
Do you know who you are?
Do you know? Come on

I just wanna let you know
Can't hold back just let it flow, if you want me
And I just wanna make you see
Here is where you want to be, if you want me

Where do all of your emotions go
'Cause I don't feel your arms holding me
And when it gets cold at night and my body is warm
Don't you know that I'm all that you need

'Cause I just wanna be with you, whenever you want me
to
And anything that you ask, I would do
And baby, I hope you understand, that I got feelings
When all of my feelings are just being used

I just wanna let you know
Can't hold back just let it flow, if you want me
And I just wanna make you see
Here is where you want to be, if you want me

I'll be your emotions as they fall in the wind
I am more then you say, your warm desire within
I'll be your emotions as they fall in the wind
I am more then your heart's best friend

And I just wanna be with you, whenever you want me to
And anything that you ask, I would do
And baby, I hope you understand, that I got feelings
When all of my feelings are just being used

I just wanna let you know
Can't hold back just let it flow, if you want me
And I just wanna make you see
Here is where you want to be, if you want me

I'm fallin' in love 'gain, you're being my friend 'gain

We're making sweet love, we're making sweet love,
babe
It's sweeter than morning dew, you know I'm so into
you
There's no other touch and it hurts me so much

I just wanna let you know
Can't hold back just let it flow, if you want me
And I just wanna make you see
Here is where you want to be, if you want me

Come on come on, come on come on, come on, come
on
What you think hun, Mase be young, Mase be dumb
Get Mase strung, there'll be no pre numb?
But ever since B.I.G. died, my life's changed
Got the blue, I'm your boo, yo that's quite strange

I get nice things, way out the price range
And half these girls, don't even know my right name
See a fly rollie, mink made of coyote
Love a ghetto chick, 'cause I know she died for me

You got me confused, see cam the freak
Mase never the playa, bring sand to the beach
I'm sumthin' that the average girl hand couldn't reach
Living expenses, 20 grand a week

You know me, I be O T, low key
Platinum rollie, smokin' a O Z
I'm that baby faced playa, without no goatee
2 point 8, and about to go 3

I just wanna let you know
Can't hold back just let it flow, if you want me
And I just wanna make you see
Here is where you want to be, if you want me

I just wanna let you know
Can't hold back just let it flow, if you want me
And I just wanna make you see
Here is where you want to be, if you want me
