not going to fight, because you want me to.
not going to lie, just because you do.
not going to die in a war for you.
not going to trust what you say or die!
won't ask you questions, because you'll lie.
not going to answer when you ask me why.
I think you're lame, you think you're sly.
I won't feel sorry for you when you die.
sick of the lies, sick of the spies
and working nine to five just to die.
sick of the lies, the ones I despise.
waiting - opportunity never arrives.
initial distrust - the system's corrupt.
you're buried alive beneath your own lie.
Initial distrust - the system will bust.
you'll be left to die in your lies.
initial distrust - a system that sucks.
pathetic greed in your daily life
Initial distrust - civilize us?
praying to gods that can't save you
from turning to dust!
not going to say what you want to hear.
not going to change,
because you think I'm weird.
not going to live in a world of fear.
not going to quit, going to persevere.
not going to listen to what you say.
not going to play games, the ones you play.
not paying taxes to profit you.
not going to do anything for you.
sick of the lies, what is the price?
even money corrodes distorting
what's valued in life.
