# Total Chaos
## "Suicide Mission"

get in line, stand at attention
it's time to die for the one-way system
here's a helmet, grab a gun
killing the enemy's lots of fun
load you down with patriotism
and send you out on a suicide mission
you believe the shit they stick in your head
it's your own damn fault you wind up dead
chorus:
don't want to die for the one-way system
or want to live there no more
don't wanna go on a suicide mission
and die in some stupid war
The leadres get fat while good men die
because nationalism's a fucking lie
the war machines they think they need
are never enough to fuel their greed
conquering armies kill the poor
it's mankinds fault he invented war
chorus:
the death toll soars
a horrible vision
children dying for a backwards system
nothing good comes out of war
just the profits of the capitalist whore
