"Good For You"

Visit "[Good For You](#)" on MotoLyrics.com

If you're dreamin', sun don't you rise
I never get lost, so deep into us
I won't give up until you give in
But I know you must realize

I could be good for you
You could be good for me too, yeah
I could be good for you
You could be good for me too

Everyone knows, but they don't know why
How much will a smile, you satisfy?
Stars gonna shine, the way that you feel
So there is no reason, I wonder why?

I could be good for you
You could be good for me too, yeah
I could be good for you
You could be good for me too

I could be good for you
You could be good for me too, yeah
I could be good for you
You could be good for me too

I could be good for you
You could be good for me too, yeah
I could be good for you
You could be good for me too, yeah

I could be good one
