Here's to the few who fared my love  
Only for you I cared, my love  
I've given it hope and I know it's only you  
Encased in silence

Here's to the you who saved my love  
Only to you I gave my love  
I've given it thought and it's not all that appears

Lea, how long will you still want me to want you  
In and around you?  
Lea, my concertina  
Will you still want me to want you?

Here's to the you who dared, my love  
Only with you I shared my love  
I've given it though and it's not all that appears  
So I'm asking

Lea, how long will you still want me to want you  
In and around you?  
Lea, concertina  
Will you still want me to want you?

Who cares what the cynics say  
I care if only you're on your way  
My Lea, don't let the same be true

Lea, do you still want me to want you?  
Lea, do you still want me to want you?  
Lea, do you still want me to want you?
